do you want a dutch telephone
number in a foreign country?
no problem!

save money on all your international phone calls

The broadband phone service

do you want a dutch telephone number in a foreign country?
no problem!

save money on all your international phone calls

call home for virtually nothing

call for less

dutch*phone*™ is able to provide you with a Dutch phone number anywhere in the world. Calling to the Netherlands from as low as 1 cent per minute.

dutch*phone*™ offers 'normal' calling with your own telephone through the Internet. The call only enters the traditional telephone network at its final destination. You pay only a local phone call! Until the call reaches its final destination the internet is the free carrier of your voice.

With the user manual the installation is complete within minutes. When installed, you can immediately call and be called on your Dutch number, as if you were in the Netherlands.

our voice finder™ is connected between your telephone and modem, routing your call through our system to Holland.

our voice finder™ reconnects to our system in the country you are calling saving you a lot of cash.

What do you need?

- An ADSL, cable or other broadband Internet connection
- An ordinary telephone
- A little device called the, voicefinder™, which dutch*phone*™ provides you.

connect local, speak global

Worldwide

Many Dutch people living abroad are using the dutch*phone*™. Our service is excellent for not only home use but also for use in the office.

"dutch*phone*™ works as a regular telephone. Since we have been using dutch*phone*™ we have had much more contact with family and friends in the Netherlands. We are called much more often and it does not cost them or us anything."
